

# SPARKLING CLEAR ALGAE-FREE WATER FOR POOLS & SPAS

## Technologically Advanced Methods for Pool/Spa Water Conditioning & Treatment (Chemical-Free)

**TWT® All-In-One  
Package Solution**  
IonGuard Ionization,  
Disinfection & Purification  
Combined with  
Deposit Control Technology

**Sensing Environmental  
Needs with Intelligent Solutions**

- *Reduce the need for chlorine and get the same results with TWT chemical-free treatment & conditioning systems*
- *Protect the investment in your pool/spa from the harsh effects of chemicals*
- *Enhance water quality, and improve operating efficiency and equipment life cycle.*

There you will see complete product catalog, additional support documents, product, system and technical information. (product sheets / complete product line / fact sheets / case studies technical papers (abstracts) / and more.

**HOW to best use our web sites:** Click on links and move your cursor over photos and drawings. Many have links to related product, system, support pages and down loadable for later review or your records. Note: some files are large and may take time to download, but they're worth the wait.

***DON'T WAIT...Contact your distributor or TWT today for a free consultation! And for information on what TWT system will meet your specific application needs!***

### Easy on the Eyes

Gain peace of mind with TWT Enhanced Control Pool Management Systems, the chemical-free, safe and easy way to enjoy your pool and spa season! Outdoor, indoor or backyard pool is a place for relaxation. Everyone wants to avoid problems with their pool, and also with the effects of handling, storing, and swimming in harsh chemicals and treated water. The good news is TWT has the solution for both!

### Super Sparkling Water

The Enhanced Pool Management System works with your existing pool filter and pump systems to control deposits and purify the water, killing and removing harmful bacteria and algae, preventing corrosion and deterioration of your pipes and equipment. Reduce your chemical treatments and maintenance efforts by 80% or more, and make your swimming experience safe, fun, and environmentally friendly.

### (TWT®) Patented Deposit Control (Chemical-Free)

Hard water conditioning & treatment technology

### Ionization—for bacteria, algae and fungus control

### IonGuard Purification System

The IonGuard Ionization Purification System is an electrolytic copper / silver ion generator. The system units contain specially cast copper/silver alloy electrodes. These electrodes are mounted in a housing designed for easy access. The IonGuard Purification System purifies water through a process called ionization. This process utilizes a low voltage direct current (DC) to place precise and minute amounts of copper and silver ions into water systems. Copper ions kill algae and silver ions kill bacteria.
